EXPERIENCE

DESIGN CONSULTANT

January 2017 - Current

YOUR PRIVATE EYESTYLIST

- Refined business objectives through meetings and a business/brand questionnaire.
- Conducted user surveys to create user personas and user flow diagrams.
- Created a Sitemap and did a content analysis based on the business offerings.
- Designed High-Fidelity Wireframe options.
- Presented mockups with Typeface and Color Palette options.
- Developed Responsive Home Page with javascript transitions.

TIMOTHY MALONE WINES

- Site redesign for an Oregon-based winemaker.
- Designed multiple modern wireframe options.
- Utilized the current color palette for design mockups.
- Currently developing the site.

FANDISTRO

April 2011 - June 2016

Director of Business Development

- Built a business concept from the ground up to an award nominated company.
- Co-managed all aspects of the development cycle including UX/UI Design, Quality Assurance, Front End Development, and Database Design.
- Increased user signups by over 200% from doing a signup flow analysis and redesign.
- Managed customer service user issues and used this feedback to spearhead UI improvements.
- Designed Sales outreach materials.

INFLEXXION

February 2008 - March 2011

Software Developer

- Worked side by side with a talented User Experience team discussing UI improvements and design feasibility.
- Built content driven websites in C# using an Ektron Content Management System and SQL Server.
- Developed questionnaire with printable reports using Telerik AJAX controls.
